

# HORSE HAIR FIRING WITH MUSETTE YOUNG

FRIDAY MARCH 24<sup>TH</sup> 9:00 TO 2:00 85.00

Students can horsehair a maximum of 3 pieces. They can either create their own pieces or purchase already made bisque. BE SURE YOUR PIECES ARE NOT EXCESSIVELY THICK TO PREVENT CRACKING IN THE FIRING

Maximum piece size is 12 inches tall by 6 inches diameter inches in diameter.

The pieces can be colored with your choice of underglaze other than black. Apply 3 coats of selected color and fire to cone 04. The pieces can also be colored with chalk (example bottom picture) after the horse hair firing and then sealed with an acrylic sealer. The pieces will be white with black horse hair marks if the back ground is not colored.

The horse hair firing process happens very fast so there will be plenty of time to apply the chalk and a clear acrylic finish after the piece is fired and cool enough.

**WORKSHOP LOCATION IS  
MARJON CERAMICS  
3434 WEST EARLL, PHX, AZ.  
ALL MATERIALS ARE INCLUDED
