NO REFUNDS AFTER OCTOBER 23RD

EMAIL ME AT peter@marjonceramics.com if you have any questions.

We all work hard to create our pieces and in this workshop we will cover various techniques to get our pieces glazed properly using brushing glazes. Brushing glazes are not all equal when it comes to ease of application, we will address some of these peculiarities.

This will be a hands-on workshop. We will start with a demonstration for an hour and then begin applying the glazes.

The following are all the application techniques covered in this workshop.

Various glazes and their properties
How to convert dipping glazes to brushing glazes
The correct brushes to use
How to adjust glazes for larger pieces
Application techniques

Marjons will provide a variety of brushing glazes to use in the workshop, you are welcome to bring any brushing glazes you would like to use as well.

What to Bring to the workshop

4 to 5 bisque fired pieces of various sizes and shapes.
Any brushing glazes you have any question about.
Glaze brushes.
Any flawed pieces you have for evaluation purposes.
