

# Garden Ollas

Friday, July 12<sup>th</sup>

From 11:00 a.m. - 3:00 p.m.

Workshop Fee \$85.00

---

The ancient gardening technique of garden ollas utilizes the porosity of terra cotta clay to irrigate your soil and retain moisture during the hot summer months.

We will learn about the functionality of garden ollas, traditional shapes and historical examples. Then we will begin to plan and build our pieces. There will be texture tools and underglazes available to make your piece a bit more colorful and fun.

The price of firing is included in the class fee. Leave your pieces with us and they will be ready to pick up in about 1-2 weeks!

Marjon Ceramics, 3434 W. Earll Dr.
